

Wildlife Rehabilitation Centers & Veterinarians that Treat Box Turtles

List Compiled by Northeast Partners in Amphibian and Reptile Conservation (NEPARC)

NEPARC information provided as guidelines intended to promote species conservation, but the user (reader) should be certain of their state's regulations for possession, rehabilitation and release. This list was compiled in January 2009 and is subject to change. Please call facilities before depositing animals to verify they still work on turtles and to determine hours of operation. While this list is extensive it is not a complete list of all qualified veterinarians and wildlife rehabilitators in every state.
